Professor Gillian Leng, Deputy Chief Executive and Director of Health and Social Care, NICE
Questions and comments from the floor
- 9.40 - 10.25 **The developing role of NICE: value, evidence-based guidance and public engagement**
What more can be done to further build on NICE's evidence-base, particularly in new areas such as social care and digital technologies? How can NICE work with other bodies such as NHS Digital and the National Information Board to streamline guidance on the use of healthcare apps? What more can be done to maintain a balance between guaranteeing quality and innovation in the NHS, while at the same time providing value for money? With the health and social care landscape changing as Sustainability and Transformation Partnerships begin their work, how might NICE need to adapt to the shift towards population-based healthcare, and to the devolution of health and social care in major cities and regions? What more can be done to improve the transparency of NICE's process for the development of guidelines and standards, and how can NICE improve its engagement with patients and the public?
Dr Julian Treadwell, GP, Wiltshire; Co-Moderator, GP Reference Panel, NICE and NIHR In-Practice Fellow, Nuffield Department of Primary Care Health Sciences, University of Oxford
