Lord Mawson, Executive Chairman, Well North
- 13.05 - 13.15 **Devolving health and care services: risks, opportunities and the current policy context**
Harry Quilter-Pinner, Research Fellow, Institute for Public Policy Research
- 13.15 - 14.00 **Assessing the impact of devo-health on system transformation: sustainability, integration and public engagement**
What is the likely contribution of health devolution towards place-based health and social care integration, and how does it relate to the progress of the Better Care Fund (BCF), Sustainability and Transformation Partnerships (STPs) and Accountable Care Systems (ACSs)? With the Cities and Local Government Act (2016) requiring devolved authorities to comply with the NHS Constitution and NHS Mandate, and accountability for the NHS remaining centrally with the Secretary of State for Health, what scope exists for the development and implementation of devolved policy to serve local needs? What impact might devolved health and care services have on patient and third sector involvement within service redesign? In light of ABPI's Memorandum of Understanding with the Greater Manchester Health and Social Care Partnership, what opportunities does the regional devolution of health and care services present for industry, particularly in areas such as market access and medicines optimisation?
Peter Denton, Healthwatch Liaison Manager, Healthwatch in Greater Manchester
