- 11.20 - 12.10 **Balancing the NHS budget: priorities for commissioners, innovative payment mechanisms and ensuring quality**
With the Government's mandate to NHS England setting out objectives for the NHS budget to be balanced while improving efficiency and productivity, how can commissioners work with NHS Improvement, local authorities and other organisations to make best use of existing funding? What impact have the £3.8bn cash injection for the NHS announced in the Spending Review and the cap on agency staff spending had on relieving financial pressures at local NHS bodies? How should payment and reimbursement systems be reformed to reward quality and what should NHS Improvement be doing to ensure performance data informs mechanisms and commissioning decisions? How can the £22bn efficiency savings outlined in NHS England's Five Year Forward View be made by 2020 without compromising patient safety?
James Roach, Joint Director of Integration, Wiltshire Council and Wiltshire Clinical Commissioning Group
Claire Murdoch, Chief Executive, Central and North West London NHS Foundation Trust and National Mental Health Director, NHS England
Jeremy Taylor, Chief Executive, National Voices
