- 9.25 - 9.40 Questions and comments from the floor
- 9.40 - 10.40 **Commercial strategies in the UK TV market - audiences, technology and discoverability**  
*With consumers increasingly exploring new ways of consuming content, how are TV service providers adapting in order to reach new audiences and compete in the evolving TV landscape? What are the most notable developments in digital technologies, particularly in mobile, interoperability, personalisation of services and integration of social features, and commissioning premium and exclusive content? What is the next phase for traditional broadcasters in the transition to IP-based services and tighter integration with OTT services? How are content curation, discoverability and promotion set to develop - including the future of programme guides, use of data and algorithmic recommendations, content portfolios, and new options in connectivity - and how will these factors impact competition going forward?*
