

## Westminster eForum Keynote Seminar

### Artificial intelligence and robotics: innovation, funding and policy priorities

Timing: Morning, Tuesday, 27<sup>th</sup> February 2018

Venue: Central London

Draft agenda subject to change

WESTMINSTER  
eFORUM

- 8.30 - 9.00 Registration and coffee
- 9.00 - 9.05 **Chair's opening remarks**  
**Lord Clement-Jones**, Chairman, House of Lords Select Committee on Artificial Intelligence
- 9.05 - 9.15 **The current state of play: an analysis of AI and robotics in the UK**  
**Rob McCargow**, Artificial Intelligence Programme Lead, PwC
- 9.15 - 10.10 **Realising value from AI and robotics: innovation, funding, and rollout**  
*Where are AI and robotics technologies set to make most impact in terms of revenue generation, cost saving and efficiency, and service provision - across manufacturing, retail, and the private and public services sectors - and where is this currently being achieved most successfully? What are the implications for markets and competition? What are the challenges for investment and adoption including in reskilling and business process change, how can they be addressed and what are the timescales for realising benefits? In terms of funding, what factors will be most important for investors? How closely aligned are theoretical advances in AI and robotics with real world business needs, how should researchers and businesses be approaching partnerships, and what examples of successful relationships have developed in this area? Internationally, how does the UK compare to other leading nations in this space and what Government initiatives as part of the Industrial Strategy would be of most value to innovators, exporters and the wider tech industry?*  
Senior representative, practitioner  
Senior representative, funding  
Senior representative, business  
Senior representative, industry  
Questions and comments from the floor with **Rob McCargow**, Artificial Intelligence Programme Lead, PwC
- 10.10 - 10.45 **Policy priorities for the UK: strategy, international relationships and regulation**  
**Gila Sacks**, Director for Digital & Tech Policy, DCMS  
Questions and comments from the floor
- 10.45 - 10.50 **Chair's closing remarks**  
**Lord Clement-Jones**, Chairman, House of Lords Select Committee on Artificial Intelligence
- 10.50 - 11.15 Coffee
- 11.15 - 11.20 **Chair's opening remarks**  
Senior Parliamentarian
- 11.20 - 12.15 **Trust, regulation and cyber security**  
*With concerns about the implications for employment, cyber security and safety of increasing use of robots and AI, and also the promise of greater productivity and skills infilling, what are the realities and the principal challenges for policy, research, industry and wider society from the rollout of these emerging technologies? What should be the response of policymakers? How should the sector itself work to build trust and where might this need to be backed up by regulation, initiatives to develop and protect AI and robotics skills in the UK, and parallel advances in technology that address security and other potential issues? As the UK negotiates its withdrawal from the EU, what legal and regulatory implications relating to EU GDPR, cross border trading and possible regulatory divergence need to be addressed, what should be the next steps and where do responsibilities lie, and what might the opportunities be resulting from Brexit?*  
**Andrew Joint**, Managing Partner & Commercial Technology Partner, Kemp Little  
**Matt Houlihan**, Director, Government and Corporate Affairs, Cisco  
**Richard Moyes**, Managing Director, Article 36  
Senior representative, skills  
Senior economist  
Questions and comments from the floor
- 12.15 - 12.25 **Priorities for research and funding for the AI and robotics sector**  
**Professor Phillip Nelson**, Chief Executive, Engineering and Physical Sciences Research Council and Chair, Strategic Executive, RCUK
- 12.25 - 12.55 **The way ahead: the potential for growth, wider adoption and commercial opportunities for the UK**  
**Professor Dame Wendy Hall**, Professor of Computer Science, University of Southampton and Joint Lead, Government Review into Artificial Intelligence  
Questions and comments from the floor with **Professor Phillip Nelson**, Chief Executive, Engineering and Physical Sciences Research Council and Chair, Strategic Executive, RCUK
- 12.55 - 13.00 **Chair's and Westminster eForum closing remarks**  
Senior Parliamentarian  
**Peter van Gelder**, Director, Westminster eForum
