- 11.50 - 12.55 **Administrative burden or competitive advantage? - the implementation challenges of the EDPF in the UK**
What will be the administrative cost of implementation of the European Data Protection Framework to UK organisations, in particular the requirements for data protection officers, consumer data portability and data breach notifications? What are the prospects for achieving Commissioner Reding's projections of a £1.9bn saving for European businesses - and what organisations are likely to see savings? Will the new regulation lead to increased trust from consumers for EU-based organisations and create an international competitive advantage? What will be the impact of the EDPF on data protection policies within organisations - how real is the danger of creating a culture of 'box-ticking' compliance? How far will European businesses' opportunities to innovate with data be affected - particularly in the context of the 'right to be forgotten', measures to restrict user-profiling and the need for 'explicit consent'?
