11.10 - 11.20 **Case study - guidance on structure and content of records**
David Davis, Clinical Informatics Advisor, NHS England

11.20 - 11.30 **Data and privacy: ensuring confidentiality and consent**
Sam Smith, Coordinator, medConfidential

11.30 - 11.50 Questions and comments from the floor

11.50 - 12.35 **Integrating patient records and implementing a '21st Century IT system'**
In developing integrated systems for patient records, how should the interoperability challenges be tackled, including working across different networks and organisational boundaries? What more can be done to better engage clinicians in the development and delivery of new processes, and to improve communications between organisations? With the 'Personalised health and care 2020' framework setting out the aim for all care records to be digital by 2020, what are the next steps for improving digital access? Is enough being done to help patients access their own reports and scans to take control of their care? Are the proposed standards for 'accredited safe havens' (ASHs) sufficient to ensure data security, and will ASHs be an effective way to provide commissioners with data needed to deliver local services?
Dr Phil Koczan, Chief Clinical Information Officer, UCL Partners
Dr John Lockley, Clinical Lead for Informatics, NHS Bedfordshire Clinical Commissioning Group and Member, NHS e-Referral Service Programme Board
Dr Charles Gutteridge, Chief Clinical Information Officer and Consultant Haematologist, Barts Health NHS Trust
Shane Tickell, Chief Executive Officer, IMS Maxims
Questions and comments from the floor

12.35 - 12.55 **Next steps for healthcare technology policy**
Beverley Bryant, Director of Strategic Systems and Technology, NHS England
Questions and comments from the floor

12.55 - 13.00 **Chair's and Westminster Health Forum closing remarks**
Baroness Hanham
Sam Dolton, Westminster Health Forum
