- 9.05 - 9.15 **Internet security for the age of Stuxnet and Flame**
Martin Jordan, Head of UK Cyber Response, KPMG
- 9.15 - 9.25 **International co-operation in cyberspace**
With the UK set to launch the new Centre for Global Cyber-Security Capacity Building, an analysis of international initiatives to deliver improvements in cyber resiliency.
Jeff Parker, Director of Projects, International Cyber Security Protection Alliance (ICSPA)
- 9.25 - 9.35 **Standards and best practice in cyber security**
How can cyber security standards be implemented to deliver best practice in information security and governance?
Tim McGarr, Sector Content Manager (Risk & Business Continuity), Governance & Resilience, BSI
- 9.35 - 9.55 Questions and comments from the floor
- 9.55 - 10.20 **Next step priorities for the UK Cyber Security Strategy**
James Quinault, Director, Office of Cyber Security and Information Assurance
- 10.20 - 10.55 **Cyber security in Europe**
Following the launch of the Commission's cyber security strategy, what can be achieved through coordination of cyber security at a European level?
Steve Purser, Head of Core Operations Department, ENISA
Questions and comments from the floor with **James Quinault**, Director, Office of Cyber Security and Information Assurance
- 10.55 - 11.00 **Chairman's closing remarks**
The Earl of Erroll, Chairman, Digital Policy Alliance
- 11.00 - 11.25 Coffee
- 11.25 - 11.30 **Chairman's opening remarks**
Russell Brown MP, Shadow Minister for Defence, International Security Strategy
- 11.30 - 12.15 **Confidence and skills: businesses and consumers**
What are the next steps in the protection of the UK from eCrime and for increasing public confidence in online services? What are the most successful approaches to increasing consumer confidence to engage with online services? What are the primary concerns of companies which lower their tendency to securely develop, offer or use online services; how is this changing, and how can business caution be effectively addressed? Can the commercial benefits be quantified of increased trust in using web-based services and applications to deliver services? Is the UK, currently and in the future, likely to have both the basic and expert skills necessary to protect the UK economy from online threats – where are the gaps and how can they be filled?
Tony Neate, Chief Executive Officer, Get Safe Online
Dr Louise Bennett, Chair, Security Community of Expertise and Chair, Identity Assurance Working Group, BCS: The Chartered Institute for IT
Ian Parrett, Director of Communications, Smoothwall
Philip James, Partner, Pitmans
Questions and comments from the floor
- 12.15 - 12.55 **Making cyber security a business critical issue, and the role of government**
In the context of the complexity and range of strategic issues in play in businesses, where should cyber security realistically be in the corporate agenda? How can the case for investment in internet security be made before an organisation receives a critical threat to a business infrastructure? With the EU set to enforce new protocols for data protection, and a continuing rise in the sophistication of attacks, is the cost of keeping information safe set to rise significantly? Are governments providing industry with a clear picture of the risks faced online and the necessary support to co-ordinate large scale responses?
Martin Smith, Chairman and Founder, The Security Company
Sir Kevin Tebbit, Senior Advisor, Hewlett Packard; Director of GCHQ (1998) and Permanent Under Secretary of the Ministry of Defence (1998-2005)
Cath Goulding, Head of Information Security, Nominet UK
Questions and comments from the floor
- 12.55 - 13.00 **Chairman's and Westminster eForum closing remarks**
Russell Brown MP, Shadow Minister for Defence, International Security Strategy
Edward Rees, Forum Lead, Westminster eForum
