Questions and comments from the floor
- 9.30 - 10.20 **Implementation and learning from the pilots**
What insights into implementation, management and administration of the personal health budgets programme have been provided by the pilot sites? What have been the challenges raised by the first interim reports into implementation of the programme and how should project leaders work to overcome these? What have been the experiences of commissioners, health professionals, operational staff and service users and how can these be incorporated in to the development of the programme? What more can be done to address service users' concerns of allocating sufficient time to the care planning process, providing a greater choice of services and facilitating cultural and organisational change? Have the financial models currently used in the pilot sites proved to be an effective use of resources and how should these be improved? What is the relationship between setup costs and changes in outcomes for service users?
Gemma Newbery, Project Manager, Personal Health Budgets, NHS Nottingham City
Jeremy Taylor, Chief Executive, National Voices
Anne-Marie Mason, Personal Health Budgets Coordinator, Cheshire Centre for Independent Living
Dr Karen Jones, Research Fellow, University of Kent
