- 9.35 - 10.25 **Challenges for delivering devolved care: collaboration, access and supporting people with long term conditions**  
*With Clinical Commissioning Groups, local authorities and NHS providers taking control of the £6bn budget for health and social services in Greater Manchester, what structures are needed to enable health professionals to effectively collaborate to deliver services? Following the launch of Healthier Together, which sets out the programme for health and social care reform in Greater Manchester, what more should be done to move patient care away from hospitals and into primary and community settings? What lessons can be learnt from the 7-day GP access demonstrator sites in Bury, Rochdale, Wigan and Central Manchester, and with Greater Manchester Health & Social Care Devolution outlining plans for every patient to have 7-day access to a family doctor, how can challenges around shift patterns and ensuring adequate funding is set aside be addressed? What is the potential for pharmacists in increasing access, relieving pressure on other services and improving personalisation of primary care? Following devolution, what opportunities exist for greater engagement with the third sector and community groups in service delivery? What are the next steps for providing coordinated care for people with long term conditions?*
