In what ways can recent concerns surrounding the impact of schools joining a MAT such as the potential effects on staff pensions and salaries be overcome? In line with the Department's vision for MATs, how can increased alignment and collaboration with other schools in the MAT be achieved, including the sharing of teaching resources? Following recent concerns surrounding the sustainability of some trusts, what further accountability measures need to be put in place to prevent other MATs from failing financially, both internally and externally? In light of the incoming changes to the Ofsted inspection framework, how can measures be further developed to ensure MATs are held to the same leadership standards as maintained schools? How can financial best practice be shared within the sector, and passed effectively from MATs leaders to those working within individual schools? In light of the transfer of responsibility for some underperforming schools to MATs, what measures can be put in place to support and prevent the overburdening of these trusts as they attempt to address the challenges within each underperforming school? What examples can be drawn from outside of education that can provide a template of best practice for MAT leaders, particularly in financial leadership?
