

Westminster Energy, Environment & Transport Forum policy conference
Next steps for carbon capture, usage and storage in the UK - market development, regulation, and the low-carbon economic recovery policy agenda

Timing: Morning, Tuesday, 16th March 2021

Taking Place Online

Agenda subject to change

**WESTMINSTER ENERGY
ENVIRONMENT &
TRANSPORT FORUM**

- 8.30 Registration
- 9.00 **Chair's opening remarks**
Alex Cunningham MP, Chair, All-Party Parliamentary Group on Carbon Capture and Storage
- 9.05 **Next steps for developing the carbon capture sector and commercialising technology development**
Olivia Powis, Head, UK Office, CCSA
- 9.15 **Integrating CCS and CCUS across carbon-intensive assets, and opportunities for decarbonisation and asset repurposing**
Dr Vinay Mulgundmath, Chief Technologist, OGTC
- 9.25 **The contribution of carbon capture to the net-zero transition - reducing costs, widening utilisation, and integration with the clean growth policy agenda**
Dr Aaron Goater, Industry Lead, Climate Change Committee
- 9.35 Questions and comments from the floor
- 9.50 Break
- 9.55 **Sector priorities for technology development and adoption - long-term policy, operational costs, and the guidance needed for industry integration**
Ross Fairley, Partner, Energy, Burges Salmon
Paul Fennell, Professor of Clean Energy, Faculty of Engineering, Department of Chemical Engineering, Imperial College London
Silvian Baltac, Principal Consultant, Element Energy
Francesca Bell, Business Advisor, Oil & Gas UK
Questions and comments from the floor
- 10.30 **Chair's closing remarks**
Alex Cunningham MP, Chair, All-Party Parliamentary Group on Carbon Capture and Storage
- 10.30 Break
- 10.40 **Opening remarks**
Stephen Flynn MP, Shadow Secretary of State for Business, Energy and Industrial Strategy, Scottish National Party
- 10.50 **Chair's introduction**
Dr Aaron Goater, Industry Lead, Climate Change Committee
- 10.55 **Developing the CCS and CCUS market - business models, investment and regulation**
Developing market rules for carbon capture - competition, compatibility with existing markets, and incentives for carbon commoditisation and trading
James Brabben, Wholesale Manager, Cornwall Insight
Creating conditions that encourage investment - market confidence, engagement with private capital, risk allocation, and routes to cost reduction
Syrie Crouch, VP CCS - Asset Management Excellence, Shell International
Setting rules that are appropriate across the sector - hydrogen production and export, growth across stakeholder value chains, and opening the potential for new market services
Dr Chris Manson-Whitton, Director, Progressive Energy
- 11.15 Questions and comments from the floor
- 11.35 **Carbon capture as an enabler for clean economic recovery and regional growth - low-carbon industrial clusters, skills and jobs development, and opportunities for local supply chains**
Karl Smyth, Head of Carbon Capture & Storage (CCS) Strategy & Engagement, Drax Group
Chris Rowell, Innovation and Clean Growth Manager, Tees Valley Combined Authority
Ian Phillips, Transition Energiser and Development Director, Pale Blue Dot Energy
Questions and comments from the floor
- 12.20 Break
- 12.25 **Priorities for long-term carbon capture policy and sector growth, and delivering whole-system change**
Will Lochhead, Head of Industrial Carbon Capture and Hydrogen Business Models, BEIS
Questions and comments from the floor
- 12.55 **Chair's and Westminster Energy, Environment & Transport Forum closing remarks**
Dr Aaron Goater, Industry Lead, Climate Change Committee
Jack Longman, Senior Researcher, Westminster Energy, Environment & Transport Forum
