

SymlConnect is a health informatics company specialising in creating cost effective ICT solutions for better communication within the existing systems & professionals, anywhere anytime using smart mobile devices for better integrated care delivery.

Policy Forum for Wales Keynote Seminar
Next steps for integrating health and social care services in Wales

Sabarna Mukhopadhyay, CEO

17th July 2013

- ❖ Primarily Manual Information Exchange
- ❖ Low quality data recording
- ❖ Human error
- ❖ Delayed preventative care
- ❖ Clinical time inefficiency
- ❖ Limited access to up-to-date patient info
- ❖ Delay in joined-up decision making
- ❖ Work duplication & unwanted travel
- ❖ Cost Implications & Patient Satisfaction

Cost Effective Solutions

Confidential & Secure Relevant Data Sharing On-Demand
Integrate 3rd party systems

Improved clinical time efficiency

At-the-point-of-care

**SymlConnect
Interface Framework**
